- **Operator Support:**
 - Up to (2) power gate operators
 - Up to (4) swing door operators
- **Drive Compatibility:**
 - Single-speed drum systems
 - Variable Voltage Variable Frequency (VVVF) drum systems
 - Hydraulic systems
- **Interlock Interface:**
 - Retiring cam
 - Fixed cam
 - 24VDC electric door locking systems
- **Battery Backup:** Battery-powered lowering function (hydraulic systems only)
- **Communication Interface:** RS232 port for PC-based diagnostics or configuration
- **Compliance:** ETL recognized for residential elevator applications & conforms to ASME Std. A17.5 & Certified to CSA Std B44.1

SOFTWARE FUNCTIONALITY

- **Operating Modes:**
 - Single automatic pushbutton
 - Constant pressure control
- **Programmable Timing Parameters:**
 - Run timer
 - Re-level delay
 - Call cancel timeout
 - Car light shutdown timer
- **Short Floor Operation:** Supported
- **Event Logging:**
 - Circular log with storage for the 20 most recent faults
 - Flash-based fault code display for real-time diagnostics
- **Onboard Counters:**
 - Trip count
 - Re-level occurrences
 - Auto shutdown events
- **Access Control:** Password-protected configuration settings
- **Homing Function:**
 - Selectable homing floor
 - Adjustable homing delay
- **Installation Mode:** Temporary run mode enabled for setup and commissioning

AVAILABLE OPTIONAL EQUIPMENT

- 5HP contactor upgrade kit
- Portable or panel-mounted programming interface
- Magnetic landing positioning system (*Model: SELECTOR2*)
- Field-installable external disconnect switch

BUNDLE & SAVE 10% WITH THE 4M2H2A KIT*

10% Off All Components When Purchased Together

When you purchase all components as part of the 4M2H2A kit, you'll receive:

- 10% off all individual components
- A fully compatible kit that's ready to go
- Fewer delays and less guesswork
- One shipment, one solution
